For President and Silver: W. J. BRYAN, of Nebraska.

For Vice-President. ARTHUR SEWALL, Maine.

We demand the immediate restoration of any other nation. We demand that the or any other states with the a fall legal trader, equally with guid, for all debts, public and private and favor such legisation as will prevent the demonstration of any kind of legal tender money by private contract. Democratic National Sover

JAMES G. BLAIN once said: "It is impossible to strike silver out of existance as money without results that will prove distressing to millions and utterly disastrous to ten: of thous-

STRAWS show which way the wind blows. Within nine days after the New York Journal had come out in favor of eilver, its circulation increased 50,000. The cause of silver must indeed be dead in the east.

A man who has been pronounced officially dead turned up in New York recently and demanded his share of his father's estate. The courte refuse to believe him alive in spite of his own affidavit. Some people's reputation is always getting in the way of their · sterial advancement.

THE New York Tribune says :-"There is no such thing as a free silver Republican. You might as well talk about a white blackbird. Free si'ver is Democracy, pure and simple, and the Republican who accepts the free silver heresy and still refuses to go out of the party, merely imposes upon the party the unpleasant duty of kicking him out."

THE following editorial paragraph taken from the Los Angeles Times is a good sample of what the gold bugs, as a rule, think of the common pec-

ple of the United States : ""An Arizona paper says: "Everybody is fireking to the standard of Bryan because he is the choice of the masses." The paper in question got the "space" in at the wrong place. It should have inserted it after the

Cochise county has eight artesian wells the combined flow of which is about 250 gallons a minute, or 403,200 gallons per of 25 hours. These wells are all in the neighborhood of St. David and if all the water which flows from them during the winter months could be stored in reservoirs to be added to the continuous flow throughout the growing season, the farmers of that locality would be entirely independent of the river for their supply of water for irrigating purposes.

The democracy of this territory undoubtedly in better trim to make a good fight this fall than it has been in years, but it will not do to underestimate the strength of Buckey, and in order that none of the party strength be lost to it. Democrate should be on the alert. The right of the chairman and secretary of the Central committee to name the time and place of holding a territorial convention without a vote of the central committee is questioned among the Tombstone democracy, claiming there has been no meeting of the committee, or if there has been, none of the territorial committeemen in this section have not been notified of any such meeting They hold it is not good politics, and claim the naming of holding the conrention at Williams, Kingman, Yuma. Solomonville or in any other place away from the center of population, is lo and beheld they are back as bright tive of an attempt to place the and frieky as ever. the hands of the gold bug ole-

#### BISBEE NEWS.

O PETRINGS.

Mr. Fred Ingle has also moved into his small sized mansion in the same vicinity. Fatty always was right in it but he belongs to the upper 10 now. sure pop.

Mr. P. D. Cunningham and tamily have moved into their new house on Nob Hill. If you should happen to notice a light way up on the moun tain side there at any time don't stop to ask what it is; you'll be perfectly safe in concluding that it is in Paddy's house.

Gue Peterson who has been working in the mine here for some months past, with them. They expect ber in the left for Denver this morning. Mr. Peterson thinks he has some valuable copper mines in Mexico and is trying to get some one with capital to take hold of them with him. He is going to Denver for that purpose, but if unsuccessful there will go still further east, presumably to St. Louis.

The advent of two newly married couple into the burg of Bisbee was to much for the youngsters' feelings last night. They were completely carried away with enthusiasm, and made an otherwise beautiful night altogether hideous with their continuous and im perturable tin can serenades. We had the pleasure of trying to go to sleet near the house of one of the blissful couple and know what we're talking shout We think the town ought to cetablish a fund to buy the boys off in all such cases. All that would be necessary to make the plan a success would be a good person to do business with the boys. We think that either "Smoothy" Tyler or "Windy" Crouchy could fill this position very well and hope that some of our town philanthropists will take the matter in hand

Harry Slater, one of our young friends from Tucson who has been taking in the town for a few days past had a rather unfortunate accident befall him this morning. He was going out on the train but stopped to see some friends a moment too long and when he got to the round bouse, just below the depot, he found the train leaving and under quite a good headway. Not wishing to be left he tried te jump the train but in some way made a mi-calculation and was thrown violently to the ground. He had s very narrow escape from being run over, and got off very lucky considering. His leg is so badly sprained though that it will be some time before he will have the use of it, but it is a great wonder to all that it was no broken. He was immediately taken to the house of a friend where he will receive the best of attention and he hopes to be able to make the trip to

Tueson in the course of a few days. We have learned since yesterday that a rising young Bisbesite is one of the young gentlemen who intend to visit Tucson for educational purposes next month. We are in something of quandary ourselves as to whether he is imbued with a longing for intellectual training, or is simply overcome with a desire to be near to see and to hear a certain young lady. This is a question which we are alraid can only be answered to our satisfaction by future events. Of one thing we are certain, however, and that is that, unless Ed changes his mind about going to Tucson, we will lose one of our elining lights in the field of journalism. That Mr. Alvan Howe will not allow himself to be outdone by any such scheme as this is without the shadow of a doubt, and therefore, unless Ed will compromise by staying st home, we may as well make up our minds not to be disappointed if we lose one of our much respected editors,

#### Notes of Interest form O:r Occasional Correspondent.

Dr. E. V. Rown who has been attending to Dr. Gaff's practice while he has been visiting in California has been very sick and night before last was not expected to live, but we learn today that he is much better.

Although the citizens of Arizons can not vote for president yet they tieing able to bring Mrs. Curry back A Subject which Leads to Our seem to take just as much interest in the election (or more) than they do in other places where they can, and little groupes of men can be seen on our street corners by night and in the shady places by day earnestly discussing the free silver proposition and attering words of encourgment for Bryan and what he represents.

Dr. Gaff, wife and son returned from a months trip to California. Par of time was scent in San Francisco where the Doctor visited the principal hospitals there and witnessed quite a number of very difficult and interesting surgical operations which he says has paid him well for his trip. Part of the time was spent on Catalina Island which he calle! the Paradise of the Pacific Coa-s where all enjoyed themselves to full extent.

Mr. Beatty and family leave this evening for Pueson where they will make their future home. There many friends here regret their departure.

A dispatch from San Francisco has the following of a former Tombetoner: David Nagle, ex United States Marshall who killed Judge Terry some years ago while acting as a body guard to Justice Stephen J. Field, got into an alterestion wish James H. Barry editor I the Star, a weekly paper, on Montgomery street vesterday. In the last issue of the Star Barry published the biography of Nagle, in which the latter's record and character were severely criticized. Nagle asked if Barry was the author of the article in in the Star, Barry replied that he was responsible for it. "Then take this," said Nagle, spirting four times in Barry's face. Barry struck at Nagle. The latter with a hand on his own hip pocket said, "Now fill your hand." Barry said "You are a coward and I am not." The bystanders interfered and the men were separated before any blows could be exchanged.

The Laredo News is responsible for the statement that agreat many Mexicans living on this side the Rio Grande are taking advantages of the liberal terms offered them by the Mexican government and are now preparing to return in large numbers to their native land. It is claimed that these people, who after baving been out of Mexico for many years, now long for their mother country as the I-reelites longed for the land of promise.

NOGALES.-Just after noon today. most daring attempt was made to rob the Internation! Bank of Nogales, and the robbers were frustrated in their plans only by the coolness and beavery of Mr. Hererra, cashier of the bank. John Dessart, president of the bank, was just leaving bank when three men entered, two of them armed with two Colts 45 pistols and the third with Winchester rifls. One man covered the cashier with two pistols, the man with rifle covered Despart while "hird tried to get to the vault. One man went to back room where several men were holding a meeting and madethem all hold up their hands. He attracted the attention of the man who had the cashier covered; this furnished opportunity for Hererra to get hie gun, when the robbers left the building, moun ed horses and rode off shooting. Cashier followed into street and emptied gun at robbers; it is believed be hit one of the men as he was put on horse by a con federate. President Dessart received slight scalp wound and a horse was killed in the street. Posse formed quickly and are in pursuit with good chance of capturing robbers. JEFFERSON CITY, Mo.-Richard P. Bland was nominated for congress by the democrats of the eight's congressio al district today. The Chicago platform was endor ed.

New York.-It was announced at Democratic beadquarters that Mr. Sewall would be present at the meeting at Madison Square Garden on the 12th when William J. Bryan will be formally notified of his nomination.

DENVEY .- James J. Corbett arrived n Denver. He will spar Reddy Gallagher tonight and tomorrow night will meet Bill Woods at Cripple

SEATTLE, Wash .- Ex-Street Commissioner Lawrence Cummings shot himself through the head and di-d about 1 o'clock this morning. He was in jail charged with the murder of his wife and an attempt to murder his daughter on June 11.

Swanska, Wales,-A dispath from Neath seven miles from here, announces that forty miners are entomb in the Bryncock pit by the explosion

Curcago -Phil Armour has notified his 5000 amployees that he will give them fifty cents worth of meat and a Mexican silver dollar in change for an American silver dollar.

PEREA, O .- The residence of Bichard Dodd was burned to the ground his morning. A wire screen had been torn from the window, oil poured on an unoccupied bed near it and lighted Dodd's soon smelt the smoke and are used his father barely in time to get out of the house. Two children were overcome with smoke. The family consists of seven children. The restdence of Jas. Woodcock was also estorated with oil but not lighted Dodd and Woodcock are contractors at the quarry and both employ nonuni n men. They were asked to employ union men but were unable to do so. They said they had no work for them.

CHICAGO.-It was learned today that calls for \$400,000 margins on Diamond Match stock, which could not be raised, was the cause of the failure of Moore Brothers. The loss of Moore Bros. it is estimated in besween \$4,000,000 and \$5,000,000.

# A Small Spot May Be Cancer!

It is very often that the most insigafficant symptoms are forerunners of the most violent disease. There is not a more destructive disease than Cancer, and in a majority of cases it is first indicated by a very small scab

is first indicated by a very small scab or sore, to which no attention is at-tracted, until it before long develops into most alarming conditions.

Here is such a case, where the first symptoms were too small to be noticed for quite a time. Mr. J. B. Arnold be-longs to one of the oldest and best families of Carolina; he is well and favorably known throughout South Carolina, and has resided at Green-wood for years. Cancer is hereditary wood for years. Cancer is hereditary in the family, an aunt on each side having died from it. Several years ago a small spot, like a tiny ulcer, about the size of a bird-shot, appeared just under his left eye, above the cheek bone. He thought nothing of it for some time, until it began to grow rap-idly, spreading all the time, and de-stroying the flesh as it went.

He says: "It gave me a great deal of pain—those sharp, darting pains so characteristic of cancer. I took many so-called blood medicines, without the slightest effect, and sought the help of the best physicians, but they did me the best physicians, but they did me no good: one told me, however, that I was incurable and had better make my arrangements accordingly. I was on the verge of despair, when Dr. J. L. Miller, one of the leading druggists of my town, recommended S. S. S. The first bottle seemed to make me worse, but Dr. Miller told me this was a fav-orable symptom, and by the time I had taken the second bottle, the cancer be-gan to discharge, and as I continued this became quite profuse, and kept up for some time. Then it gradually grew less, and after awhite ceased al-together, and to my delight the place dried up and is cured entirely, so that

nothing remains but a scar. "I consider S. S. S. a boon to suffer-ing humanity, and feel that I owe my life to it, as the cancer had made such progress when I began S. S. S. that my death was declared to be only a matter of a very short time. The cure ef-fected in my case is considered by every one most remarkable, and clearly demonstrates the fact that S. S. S. does cure hereditary cancer. No one who is afflicted with this dreadful dis ease can afford to fail to give S. S. S.

a trial, for that is all that is necessary to convince them of its virtues."

The above is but one of many re-markable cures being daily made by 6. S. S. Cancer is becoming alarmingly prevalent, and manifests itself in such a variety of forms, that any sore or scale, it matters not how small, which does not readily heal up and disappear, may well be regarded with

The fact that S. S. S. cures herediblood diseases, such as Scrofula, Ec-zema, Contagious Blood Poison, or any other form of bad blood.—Atlanta Constitution.
